January 2014

Dear << Test First Name >>

Welcome to a STOP PRESS piece of **Height Safety News**.
Industry Guidance on the New CDM Regulations is now published.
Training presentations are available through [Higher Safety](#).

Guidance documents on the New CDM Regulations have now been published by CITB.

They were published on 9th Jan, and the New Regulations themselves come into force on 6th April this year.

The guidance is broken into 6 documents, one for each duty holder and one for the workers. The documents are available for [free download](#) from the CITB website.

[Industry guidance for Clients \(PDF, 436 KB\)](#)

[Industry guidance for Contractors \(PDF, 586 KB\)](#)

[Industry guidance for Designers \(PDF, 718 KB\)](#)

[Industry guidance for Principal Contractors \(PDF, 717 KB\)](#)

[Industry guidance for Principal Designers \(PDF, 150 KB\)](#)

[Industry guidance for Workers \(PDF, 150 KB\)](#)

The HSE Construction Industry Advisory Committee (CONIAC) has written the guides with small businesses in mind. The Regulations and supporting guidance remain in draft form and may be subject to minor changes before the new

Regulations come into operation on 6th April 2015.

Higher Safety are offering explanatory presentations on the new Regulations, and what changes are involved for each level of duty holder. These can be arranged "in company" for a bespoke session within your business, or you can attend an "open" presentation explaining the changes and what they mean.

We need to gauge the level of demand for such presentations, so please make direct contact, or raise a question via the [contact page](#). Contact details are below.
